WELCOME TO ONYX IES

- ◆ Onyx IES is an Independent Manpower & Integrated Energy Solutions services provider owned and run by experienced professionals.
- ◆ Our technical capabilities are focused on Drilling Engineering, Operations, Production Technology and Production Chemistry, Reservoir and Petroleum Engineering with the ability to cover the disciplines of G&G.
- ◆ We have established a healthy blend of Malaysian and international experts in both our Technical and Management organisations.
- ◆ We are like minded pragmatic people who enjoy our work and like to help others in the process.
- ◆ Onyx provides 'Fit for Purpose' process and methodology to deliver pragmatic solutions.

E&P CONSULTANCY

PROJECTS

We have been performing Integrated projects for over ten years.

Our solutions can be delivered on a collaborative outsourced basis where we will engage the appropriate skills sets, tools and commercial mechanism tailored to the needs of the individual project.

SUBSURFACE

Onyx IES Staff in Kuala Lumpur are established subsurface experts in the region. We have successfully provided a whole range of technical expertise to various operators ranging from large multinational to a newly setup oil and gas independent operators.

WELL ENGINEERING

We have an extensive track record in the delivery of well design and well operations management.

This includes consultants with a wealth of both regional and international experience.

RECRUITMENT

As experienced industry professionals we understand your needs and we understand the needs of our clients better.

We understand our clients needs and match this with the expectations of our candidates.

We have access to our own extensive database of industry Contacts, but we also engage International data bases which allows us to spread our net globally.

This, along with our high level of understanding of the Upstream E&P business allows us to deliver the right solution at the right time.

E&P SERVICES

Onyx IES is working with the following Companies to bring their industry leading services to Malaysia:

Aberdeen Drilling Consultants

Rig Inspection Services

Aberdeen Drilling Consultants (ADC) is the leading provider of comprehensive rig inspection services which includes; Rig Acceptance Testing, BOP & Well Control Surveys, Integrated Control Systems Inspection Services, Asset Integrity Assurance, Complete Dropped Objects Surveys, Thermal Imaging; Dynamic Positioning; Risk Management, surveys. ADC enjoys a global reputation which is second to none.

EXCEED

Leading Well Delivery

Exceed is a leading provider of Performance Improvement & Drilling Project Management services. (Including deepwater) Exceed's objective in working with their Clients is to deliver a return on investment that exceeds the initial investment, to embed sustained internal capability and work with and evolve existing systems and processes. Their mission is to positively impact HSE, Efficiency & Consistency.

FOCUS

Environmental Fluid Management

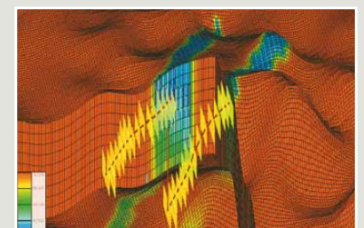

Focus is an independent environmental energy services company that provides environmental fluid handling, containment and compliance services on drilling assets offshore, onshore and in all drilling locations around the world. FOCUS's core values are; Zero spills, Effective Containment, Cost Effective Solids Control Equipment Management & Compliant Reporting.

Rock Flow Dynamics

tNavigator Modelling Software

RFD's industry-leading tNavigator™ is the first and only product on the market which dynamically combines a fully interactive 3D graphical user interface and a record breaking parallel supercomputing engine. The core algorithms are based on the latest scientific developments in the field and provide the most efficient use of modern computing platforms. tNavigator provides superior performance and unparalleled user efficiency for reservoir engineers.

DIRECTOR PROFILE

Gordon Williams
